OFF the charts

This app is the only thing has has ensured I've done Uni work at all this year! The Focus time ensures I don't use my phone when working and the Bedtime option ensures I get en [more](#)

Life changing

This app has honestly changed my life! I see much more of my family and friends through the idea of living in the moment instead of living through my phone. It truly makes a [more](#)

Believe the hype

When I heard my friend's talking about it, I figured it was just a phase that they were going through. Like who chooses not to use their phone? But this app has really help [more](#)
